

Taxiway Y Bridge Reinforcement

Project Scope

- Strengthening and reinforcement of the Taxiway Y bridge over International Parkway
- Reconstruct bridge deck
- Expand blast protection over roadway and light rail line
- Bridge will ultimately support max takeoff weight of ADG VI aircraft, i.e., A380 and B747-8

Bridge closure

- From June 11th through mid-January 2019
- Not to be done concurrently during any other bridge closure
