

Taxiway F Rehabilitation

Project Scope

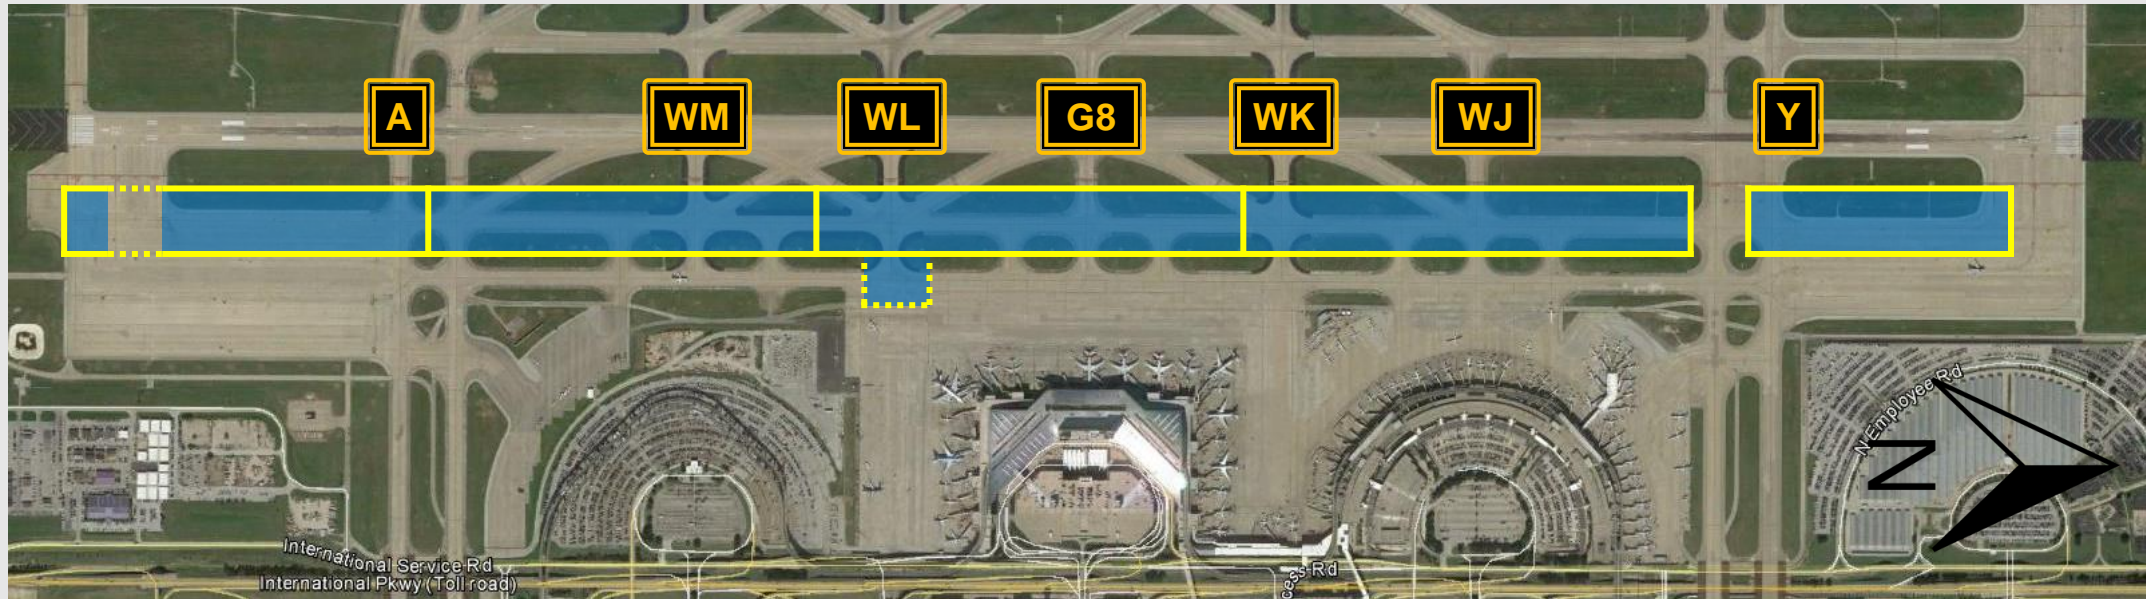

- Replace and expand asphalt shoulders of Taxiway F, full length
- Remove and replace concrete panels at various locations along Taxiway F
- Expanding pavement at key intersections
- Joint seal replacement

Taxiway F Closures

- Possible construction start in Fall 2018
- Multiple phases
- Duration not yet known

Taxiway F Rehabilitation

Tentative phasing

The sequence of phases will be dictated by operational needs, such as typical flow, deicing season, and other airfield construction projects underway concurrently.

To further accommodate this work, a Modification of Standard has been submitted to the FAA requesting permission to allow for A380 operations on Taxiway G.
